**D. Background and Scope of Work**

**Background**

The National Minority Supplier Development Council advances business opportunities for certified minority business enterprises and connects them to corporate members. To achieve our mission, we will:

1. work through the NMSDC Network to support and facilitate MBE integration into corporate and public-sector supply chains;
2. build MBE capacity and capabilities through our programs and other education offerings; and
3. facilitate MBE-to-MBE partnerships to meet the needs of our corporate members.
The National Minority Supplier Development Council Inc (NMSDC) is one of the country’s leading corporate membership organizations. Whether you’re a small minority-owned organization or a billion dollar powerhouse, we’re committed to helping you solve the growing need for supplier diversity.

We do this by matching our more than 12,000 certified minority-owned businesses to our vast network of corporate members who wish to purchase their products, services and solutions. Our corporate membership includes many of the largest public and privately-owned companies, as well healthcare companies, colleges and universities.

The NMSDC network includes:

– a national office in New York City
– 23 affiliate regional councils nationwide
– 1,450 corporate members and growing

We’re proud of our unwavering commitment to advance Asian, Black, Hispanic and Native American suppliers in a globalized corporate supply chain.

Surveys to be Developed and Administered

NMSDC has experience with the customer surveys; and the survey developed must have an Industrial-Organizational Psychology review. We are looking for an organization to collaborate with our staff and partners to refine content, develop a methodology for different sample groups and lead administration of these. The focus of the contractor’s role will be on methodology (specifically on timing and sampling), pretesting and fine-tuning content and not on building surveys “from the ground up.” Staff and partners across the network will serve as the “Subject Matter Experts”. The selected organization must develop a defensible schedule and sampling procedure for administering the surveys that can be replicated without great expense.

Administration of the surveys will initially be through the firm awarded this contract. NMSDC will own the surveys and the methodology created for this Request for Proposals and is free to administer them either with NMSDC staff or to hire another entity after the initial surveys are completed.

There is a preference for electronically delivered surveys. Our funds are precious and we are looking for cost-efficient methods. The Contractor will be responsible for compiling and displaying the survey data, assisting with revisions, interpreting the response rates and identifying methods to improve responses and elicit strong feedback to improve the system.
