#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

# NOTE 1 ORGANIZATION

National Minority Supplier Development Council, Inc. (the Council) advances business opportunities for certified minority business enterprises (MBEs) and connects them to corporate members.

The Council, a not-for-profit organization incorporated in Illinois, is a publicly supported organization exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code (IRC).

As of and for the years ended December 31, 2018 and 2017, the Council had 23 regional councils across the country, respectively. The regional councils certify and match minority-owned businesses with member corporations that want to purchase their products and services. Effective January 1, 2014, a new funding model was adopted that allocates a portion of the national dues collected as follows: a) 70% is divided equally among all regional councils; (b) 10% is allocated as a headquarter stipend based on national member headquarter locations; and (c) 20% is allocated as a performance bonus according to performance metrics agreed upon by the Council and the regional councils. A percentage of the membership renewal dues is set aside to provide fringe benefits and training for regional council staff and technology tools and software upgrades. In addition, selected regional councils share in the profits earned from the annual conference and business opportunity exchange.

# NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Basis of Presentation**

The accompanying financial statements have been prepared using the accrual basis of accounting. The financial statements are presented in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

# Net Asset Classifications

The Council reports information regarding its financial position and activities according to two net asset classes: without donor restrictions and with donor restrictions.

*Without donor restrictions:* Net assets that are not subject to donor-imposed stipulations. Net assets without donor restrictions may be designated for specific purposes by actions on behalf of the Board of Directors or may otherwise be limited by contractual agreements with outside parties. Undesignated net assets can be utilized to carry out any purpose of the Council.

Notes to Financial Statements For the Years Ended December 31, 2018 and 2017

# **NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

#### Net Asset Classifications (continued)

*With donor restrictions:* Net assets used by the Council and subject to donorimposed stipulations that can be fulfilled by actions of the Council pursuant to those stipulations or that expire with the passage of time.

The Council maintained an annuity investment account, which includes the endowment, to earn a minimum return of 3% for its scholarships program.

#### **Contributions**

Contributions received are recorded as contributions without donor restrictions or contributions with donor restrictions, depending on the existence and/or nature of any donor restrictions.

When a donor's restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

In-kind contributions, donated services, and materials are recorded at the fair value on the date of donation.

#### Membership Dues

Certain firms in private industry that desire membership in the Council are required to pay annual membership dues in amounts determined by the Council's Board of Directors. Dues are deferred until recognized as income based on the fiscal period for which they are assessed.

#### Furniture, Fixtures, Equipment, and Leasehold Improvements

Furniture, fixtures, and equipment are carried at cost and are depreciated using the straight-line method over their estimated useful lives. Leasehold improvements are amortized on a straight-line basis over the lesser of their estimated useful lives or the term of the lease. Equipment and furniture and fixtures are capitalized if they cost \$500 or more and have a useful life when acquired of more than one year. Estimated useful lives are as follows:

Leasehold improvements	6–12.5 years (or the remaining lease term, if shorter)
Equipment	5 years
Furniture and fixtures	7 years

Notes to Financial Statements For the Years Ended December 31, 2018 and 2017

# NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Cash Equivalents

For purposes of the statements of cash flows, the Council considers all highly liquid debt instruments purchased with a maturity of 90 days or less to be cash equivalents.

#### Investments

Investments are in certificates of deposit, annuities, mutual funds, money market funds, real estate investment trusts and artwork. Investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note 5 for further discussion and disclosures related to fair value measurements.

Purchase and sale of securities are recorded on a trade-date bases. Interest income, including unrealized appreciation/depreciation earned on investments, is recognized as revenue without donor restrictions unless specifically restricted for use by the donor in the accompanying financial statements as investment income or loss.

#### **Functional Allocations of Expenses**

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated by management among the programs and supporting services benefited.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

#### Accounting Pronouncement Adopted in the Current Year

In 2018, the Council adopted Accounting Standards Update (ASU) 2017-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities*, which changes how a not-for-profit organization classifies its net assets, as well as the information it presents in financial statements and notes about its liquidity, financial performance and cash flows. The ASU requires an amended presentation and disclosures to help not-for-profit organizations provide more relevant information about their resources and changes in those resources.

Notes to Financial Statements For the Years Ended December 31, 2018 and 2017

# NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Accounting Pronouncements Not Yet Adopted

The Financial Accounting Standards Board (FASB) issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which requires additional disclosures pertaining to qualitative and quantitative (for public entities) disaggregation of revenue into categories that explain how revenue and cash flows are impacted by economic factors, information about contract balances and discussion of remaining performance obligations. The scope of this ASU excludes contributions and collaborative arrangements since they are not viewed to be contracts with customers. The key principle of the guidance is to recognize revenue to reflect the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendments are effective for the Council's fiscal year ending December 31, 2019, with early adoption permitted. This ASU will impact the accounting for the Council's revenue other than contributions and investment income when it is adopted.

In November 2016, the FASB issued ASU No. 2016-18, Statement of Cash Flow - Restricted Cash, which requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The amendments in this ASU are effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. The Council's management is currently evaluating the impact on its financial statements.

# **NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

#### Accounting Pronouncements Not Yet Adopted (continued)

In June 2018, the FASB issued ASU 2018-08, *Not-for-Profit Entities (Topic 958): Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made.* This ASU provides clarifying guidance on accounting for the grants and contracts of nonprofit organizations as they relate to the new revenue standard (ASU 2014-09 *Revenue from Contracts with Customers*). The ASU also aims to minimize diversity in the classification of grants and contracts that exists under current guidance with regards to exchange transactions and unconditional and conditional contributions. The ASU is to be applied on a modified prospective basis and is effective for contributions received for annual periods beginning after December 15, 2018. The ASU is effective for contributions made for annual periods beginning after December 15, 2019. The Council is currently evaluating the impact of the adoption of this ASU on its financial statements and accompanying notes.

The FASB also issued ASU 2016-02, *Leases (Topic 842)*, which requires recognition of (a) a lease asset (right of use) and lease liability, initially measured at the present value of the least payments, in the statement of financial position and (b) a single lease cost, calculated so that the cost of the lease is allocated over the lease term generally on a straight-line basis. All cash payments are to be classified within operating activities in the statement of cash flows. The amendments are effective for the Council's fiscal year ending December 31, 2020, with early adoption permitted. This ASU will impact the accounting for the Council's lease arrangements when it is adopted.

# NOTE 3 CONCENTRATION OF RISK

At December 31, 2018 and 2017, cash balances at financial banking institutions exceeded the federally insured limit of \$250,000. Management regularly monitors the financial condition of the banking institutions, along with their cash balances, and endeavors to keep the potential risk to a minimum.

The Council's investments are subject to various risks, such as interest rate, credit and overall market volatility risks. Further, because of the significance of the investments to the Council's financial position and the level of risk inherent in most investments, it is reasonably possible that the changes in the values of these investments could occur in the near term. The changes could materially affect the amounts reported in the financial statements. Management believes that the diversification of its investments among the various asset classes (see Note 4) should mitigate the impact of changes in any one asset class.

#### NOTE 5 FAIR VALUE MEASUREMENT

Investments are stated at fair value.

The Council values its investments in accordance with a hierarchy that prioritizes the inputs to valuation techniques, giving the highest priority to readily available unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement) when market prices are not readily available or reliable.

The three levels of the hierarchy under fair value measurements are described below:

- Level 1: Quoted prices in active markets for identical securities.
- *Level 2*: Prices determined using other significant observable inputs, which are inputs that other market participants may use in pricing a security. These may include quoted prices for similar securities, interest rates, credit risk, and others.
- *Level 3*: Prices determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable or deemed less relevant, unobservable inputs may be used. Unobservable inputs reflect the Council's own assumptions and would be based on the best information available.

Changes in valuation techniques could result in transfers in or out of an assigned level within the hierarchy.

#### NOTE 5 FAIR VALUE MEASUREMENT (continued)

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

*Certificates of deposit (traditional) and money market funds:* Valued at carrying value, which approximates fair value.

Artwork: Value is based on fair value at date of gift.

*Market-linked certificates of deposits:* Valued on the basis of the performance of the underlying assets.

*Annuities*: Valued at contract value, which approximates fair value, which represents deposits and reinvested interest, less any withdrawals plus accrued interest.

*Mutual funds*: Valued at the daily closing price reported in the active market in which the individual securities are traded. The open-ended mutual funds are registered with the Securities and Exchange Commission. These mutual funds are required to publish their daily Net Asset Value (NAV) and transact at that price. The mutual funds held by the Council are deemed to be actively traded.

*Real estate investment trusts (REITs)*: REITs are valued based on the latest NAV received using NAV as a practical expedient. The estimated values are determined by the management of the REITs and independent third parties using common methodologies used in the commercial real estate industry, including discounted cash flow analyses and reviews of current, historical, and projected capitalization rates for comparable properties.

Transfers between level categories may occur due to changes in the availability of market observable inputs, which are usually caused by changes in market conditions such as availability of market observable quoted prices, liquidity, trading volume, or bid-ask spreads. Transfers in and out of level categories are reported as having occurred at the beginning of the year in which the transfer occurred. There were no transfers in 2018.

# **NOTE 5** FAIR VALUE MEASUREMENT (continued)

The following table represents the Council's Level 3 assets, the valuation techniques used to measure the fair value of those assets, and the significant unobservable inputs used in the fair value measurement as of December 31, 2018:

Notes to Financial Statements For the Years Ended December 31, 2018 and 2017

#### **NOTE 9 ENDOWMENT** (continued)

The Council's Board of Directors has interpreted the applicable state law as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Council classifies as permanently restricted net assets: (1) the original value of gifts donated to the permanent endowment, (2) the original value of subsequent gifts to the permanent endowment, if any, and (3) accumulations to the permanent endowment at the time the accumulation is added to the fund.

Endowment funds as of December 31, 2018 are composed as follows:

		Without Donor estrictions	With Donor Restrictions		Total		
Donor-restricted endowment fund Board-designated endowment fund	\$	- 1,411,305	\$	100,000 -	\$	100,000 1,411,305

	Without Donor Restrictions		th Donor strictions	 Total

Changes in endowment net assets for the year ended December 31, 2017 are as follows:

	Without Donor Restrictions	With Donor Restrictions	Total
Endowment net assets, January 1, 2017	\$ 1,324,550	\$ 100,000	\$ 1.424.550

Endowment net assets, December 31, 2017	\$ 1,367,286	\$ 100,000	\$ 1,467,286

The Council has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment, while maintaining their purchasing power. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner intended to preserve the assets of donor-restricted funds that the Council intends hold in perpetuity, while assuming a low level of investment risk. The Council expects its endowment funds, over time, to provide a rate of return of approximately 3% to 4%.

Therefore, the investment objectives require disciplined and consistent management philosophies to accommodate all those relevant, reasonable, and probable events. Consequently, a periodic review of total rate of return and spending rate objectives is performed. The spending rate established by the Council is currently 3% per year.
